

Hazardous Waste Management

An **informatech** Training Course
all copyrights reserved

(5 Days Training Course)

Why Attend

It is critical for every individual involved with hazardous waste, whether with its disposal or more commonly with its transportation, to acquire the relevant safe handling knowledge and skills.

The first step in effective hazardous is to understand the difference between what is hazardous and what is not. Many types of hazardous material require special handling, and the correct handling methods must be used for the material being disposed.

Indeed, hazardous waste, if not contained correctly can lead to fires, explosions, or the release of toxic fumes due to interaction with the container. It is crucial to ensure the hazardous material is ready for transport in order to reduce risks, last minute efforts and added expenses.

This course provides every professional involved with the knowledge and skills to ensure the safe handling of hazardous waste as well as drafts of contingency/emergency plans.

Course Methodology

This course will be highly interactive and include group discussions, case studies and syndicate work. It will include practical exercises that will allow all participants to use the knowledge they gained to demonstrate their skills in hazardous waste management.

Course Objectives

By the end of the course, participants will be able to:

Reduce waste management cost by effectively distinguishing the different types of hazardous waste and applying the relevant pre-transport requirements and disposal methods

Use engineering controls to ensure all individuals involved with hazardous waste have the required Personal Protective Equipment (PPE)

Avoid accidents by applying the correct handling methods for drums and containers used for various types of hazardous wastes

Identify training needs for all individuals involved with hazardous waste management

Develop emergency response plans to hazardous substance release

Target Audience

This course is beneficial for individuals in industries that generate hazardous materials and who are charged with the development of contingency or emergency plans. This course is also designed for individuals who are directly or indirectly involved in the cleanup efforts of areas or buildings contaminated with hazardous waste.

Target Competencies

Hazardous waste management

Hazardous waste transportation

Engineering controls

Drums and containers handling

Emergency response planning

Course Outline

Understanding Hazard and Risk

Potential Pollution Linkages

Concepts in sustainable waste management

Key pollutants and their impact and management

Hazardous wastes and their potential for harm

Types of hazardous wastes, including the management and control of healthcare wastes, wastes from oil and gas industries, and industrial effluents

Hazardous waste collection and operations

Definition of hazardous waste

How to classify waste

Recordkeeping requirements

Waste container selection

Safety and health program for hazardous waste operations

Site characterization and analysis

Site control

Engineering controls

Engineering controls, work practices and Personal Protective Equipment (PPE)

PPE selection

PPE program

Handling drums and containers

Opening drums and containers

Material handling equipment

Radioactive wastes

Shock sensitive wastes

Laboratory waste packs

Sampling of drum and container contents

Shipping and transport

Tank and vault procedures

Emergency response to hazardous substance release

Emergency response plan

Elements of an emergency response plan

Procedures for handling emergency response

Skilled support personnel

Specialist employees

Training

First responder awareness level

First responder operations level

Hazardous materials technician

Hazardous materials specialist

Course Outline

On scene incident commander

Trainers

Refresher training

Medical surveillance and consultation

Chemical protective clothing

Post emergency response operations

Hazardous Waste Management Options

Hazardous waste reduction: techniques, opportunities and sustainability considerations

Options for hazardous waste recycling and re-use

Treatment of hazardous wastes, including acid-base neutralisation, solidification and stabilisation

Incineration of hazardous wastes: technology and management controls

Landfill of hazardous wastes: Engineering and environment controls

informatech™ is a global leadership consultancy that aligns people, purpose & strategy – driving socially responsible transformation in global organisations. Our international network includes 215 partners, consultants, and coaches in 24 countries throughout Europe, North America, Latin America, Asia, and Africa. We transform leaders, align teams and create fierce resolve and passion to win.

Typical interventions are to accelerate performance, execute strategy and embed capability and change. Our programmes are part of the core curriculum in many of our client's corporate universities, and our leadership development programmes have over 300,000 executive alumni. Methodologies are based on more than 100 corporate turnarounds and performance acceleration assignments in FTSE 100 and Fortune 500 companies. Austria, Belgium, Brazil, Canada, China, Colombia, Denmark, Finland, France, Germany, Italy, Mexico, Norway, Poland, Portugal, Russia, Serbia, South Africa, Spain, Sweden, The Netherlands, UK, Uruguay, and the USA.

Registration Form

THREE WAYS TO REGISTER

-  +44 (203) 2399994
-  www.informatech.co.uk
-  info@informatech.co.uk

Course / Seminar Title

Venue / Hotel	Date	Fees
	From / / 201	€ - Euro
	To / / 201	+20% VAT

Course fees include documentation, luncheon and refreshments. Delegates who attend all sessions and successfully complete the course assessment will receive an Informatech London Certificate of Completion.

All registrations are subject to our terms and conditions which are available at <http://informatech.co.uk/terms.aspx>. Please read them as they include important information. By submitting your registration you agree to be bound by the terms and conditions in full.

Payment Method

- Bank Transfer *
- Credit Card Payment

DELEGATE DETAILS

First Name : _____ Last Name : _____

Your name as will appear in attending certificate

Telephone No. : _____ Mobile No. : _____

Kindly Provide us International Roaming mobile number

Email Address : _____

Kindly write valid email address to send your e-learning materials

Company Name : _____

Country : _____ City : _____ Post Code : _____

if it is apply

We highly recommend you secure your room reservation at the earliest to avoid last minute inconvenience.

You can contact the Hospitality Desk for assistance on Email: hospitality@informatech.co.uk

PAYMENTS

A confirmation letter and invoice will be sent upon receipt of your registration. Please note that full payment must be received prior to the event. Only those delegates whose fees have been paid in full will be admitted to the event.

AVOID VISA DELAYS – BOOK NOW

Delegates requiring visas should contact the hotel they wish to stay at directly, as soon as possible. Visas for non-EURO nationals may take several weeks to process.

If you Need Help Please Send Email to : hospitality@informatech.co.uk

CANCELLATION

If you are unable to attend, a substitute delegate will be welcome in your place. Registrations cancelled more than 7 days before the Event are subject to a 200 Pound administration charge. Registration fees for registrations cancelled 7 days or less before the Event must be paid in full. Substitutions are welcome at any time.

All registrations are subject to acceptance by (Informatech Training Ltd.,) which will be confirmed to you in writing.

Due to unforeseen circumstances, the programme may change and (Informatech Training Ltd.,) reserves the right to alter the venue and/or speakers or topics.
