Why Attend

Course Introduction

In today's rapidly evolving business landscape, organizations are increasingly expected to embrace constant change and leverage the opportunities it presents.

While responses to change vary among organizations, forward-thinking ones embrace it as a catalyst for improvement.

The importance of agility in project execution and business operations cannot be overstated and should be strategically integrated, including in marketing strategies and initiatives.

In the Agile Thinking in a Changing Business World training course, participants will gain a comprehensive understanding of the key elements needed to enhance their organizations' ability to adapt, innovate, and thrive. They will learn how to think quickly and effectively amidst uncertainty, enabling them and their businesses to streamline processes and excel in a fast-changing and dynamic corporate environment.

Key features of this training course include:

- Embracing Agile Values and Mindsets to Cultivate Inner Agility
- Enhancing Personal Competencies for Greater Agility
- Agile Problem-Solving and Decision-Making for Teams and Individuals
- Cultivating Business Agility from Its Core
- Equipping with Skills and Tools to Sustain Business Agility

Course Methodology

This training course will utilize a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes:

- Instructor's guidance and facilitation of learning, using proven techniques
- Delegates' direct input, case studies, and exercises
- Short video-clips presentation and de-briefing sessions
- Discussion and activities designed to promote skill building via interaction among participants

Course content

Course Methodology

• Activities and work on examples and role-plays to highlight concepts taught and allow participants to practice skills they learned from this course

Who should Attend?

This training course is designed for those who want to consider their thinking rationale and shift towards new and agile methods.

This training course is suitable to a wide range of professionals but will greatly benefit:

- Business representatives
- Member of technical teams
- Managers and leaders of business units
- Delivery managers and leaders of technical departments.
- Engineers and technical staff

Course Objectives

By the end of this training course, participants will be able to:

- Understand the Agile mindset and its underlying principles, such as pragmatism, the power of choice and adapting to context
- Describe principles and practices to inculcate agile thinking
- Identify and transform current personal and organizational thinking which impedes agility
- Replace dysfunctional thinking habits with agile approaches by practicing agile techniques
- Promote relevant and meaningful agile inputs into the design of corporate strategies
- Achieve organizational goals by facilitating adoption of agile approaches in others' thoughts and behaviours

Course outline

Course content
