Course content

Why Attend

Why Attend Financial control is essential for protecting assets, ensuring compliance, improving profitability, and supporting strategic decision-making. Strong financial controllers help organizations manage budgets, monitor performance, reduce risks, and create sustainable value. This course provides participants with practical tools in financial analysis, internal controls, cost management, forecasting, and leadership in finance.

Course Methodology This course uses an interactive and practical approach through presentations, case studies, financial exercises, KPI workshops, group discussions, forecasting models, and real workplace examples.

Course Objectives

- Understand the principles of financial control
- Strengthen financial analysis and forecasting skills
- Build effective internal control frameworks
- Improve compliance and risk management practices
- Manage costs and optimize resource allocation
- Develop performance measurement systems
- Support strategic financial decisions
- Improve leadership and communication in finance roles

Target Audience

- Finance Controllers
- Accountants
- Finance Managers
- Budget Analysts

Course content
