## Why Attend

The Certified Professional Purchasing Manager (CPPM) credential is designed for procurement professionals who want to demonstrate advanced expertise in purchasing, sourcing, supplier management, and strategic procurement leadership. This preparation course equips participants with the knowledge, tools, and exam-focused strategies required to successfully pass the CPPM certification. It also strengthens real-world procurement capabilities, enabling professionals to optimize costs, manage supplier relationships, and drive value across the supply chain.

## Course Methodology

This course combines certification-focused learning with practical procurement applications. Participants will engage in structured lessons aligned with CPPM exam domains, case study analysis, and mock exam questions. Interactive workshops will focus on sourcing strategy, contract management, supplier evaluation, and procurement analytics. Practical exercises will simulate real procurement decision-making scenarios to reinforce both exam readiness and workplace application.

## Course Objectives

By the end of this course, participants will be able to:

- Understand CPPM certification structure and exam requirements
- Apply advanced procurement and purchasing principles
- Develop strategic sourcing and supplier management strategies
- Conduct cost analysis and total cost of ownership evaluations
- Manage procurement contracts and negotiations effectively
- Improve procurement planning and operational efficiency
- Understand risk management in procurement activities
- Successfully prepare for the CPPM certification exam

# Course content
