Why Attend

Course Introduction

This Project Management Essentials training course is designed to enhance your project management skills by focusing on effective management and leadership techniques. You will learn how to identify risks, solve problems, delegate tasks, and communicate effectively. The training course also emphasizes controlling your team and work environment while fostering a culture of improved safety. Essential for all project managers, this Project Management Essentials training course will help you and your team develop the necessary skills to manage projects successfully and create a positive, secure working environment.

Course Methodology

This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. The course is highly interactive and is designed with briefings and a central project scenario as the driver for all course learning. Students will complete several elements of project work through assigned roles. Several work products will be created including a Scope statement, WBS, Risk Register, activity list, network diagram and earned value report. There will be open discussion and real world examples with the emphasis on learning by doing.
