Why Attend

Course Introduction

This The Effective Shift Team Leader training course is specifically designed to enhance the skills and knowledge of Shift Team Leaders in the Exploration & Production, Oil, Gas, and Petrochemical industries. Shift Team Leaders play a crucial role as the key interface between line management and the workforce.

Through a highly interactive and engaging format, participants will learn about the critical aspects of their role, including effective management and leadership, problem-solving techniques, coaching for improved performance, resource allocation, and team development. This course is essential for any Shift Team Leader aiming to excel in their role and drive team success in the industry.

This training course will feature:

- The importance of the Shift Team Leader role for organizational success
- Your own self-awareness to manage yourself and others
- The analysing of risks and problems and providing effective decisions
- How to manage people through excellent interpersonal skills, coaching and communication techniques
- Methods to develop increased performance management
- Developing people and increasing your team performance

Course Methodology

This training course will utilize a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This will include highly interactive training covering the latest theories and 'best practices', targeted case studies, personal assessments, relevant topic related videos, and high impact exercises. This will provide a strong fundamental basis upon which to build future success, as well as immediate application back in the workplace.

Who should Attend?

This training course is suitable for a wide range of professionals working in the E&P oil, gas, and petrochemical industries but will greatly benefit site/refinery/process/platform based:
