## Why Attend

This course is tailored for new managers or those transitioning to management roles. It focuses on the essential skills needed in today's fast-paced and complex business environment. Participants will learn how to create value within their organization, effectively engage with internal and external customers, build essential digital skills, apply agile and innovative approaches, and develop trust-based team engagement. This course is designed to equip emerging managers with the tools and insights necessary to lead successfully in the modern workplace.

The course employs various training methods, including interactive lectures, case studies, group discussions, and practical exercises. It emphasizes real-world application and encourages participants to bring their experiences and challenges into the classroom. This approach ensures a dynamic learning environment that fosters practical skills and actionable strategies.

By the end of the course, participants will be able to:

- Develop value-creation skills to drive organizational success
- Master the art of engaging with both internal teams and external customers effectively
- Acquire digital competencies to lead in a technology-driven environment
- Apply agile and innovative methods to enhance team productivity and problem-solving
- Cultivate trust and foster team development through inclusive and empathetic leadership

This course targets newly appointed managers or those transitioning to management roles. It also benefits professionals in leadership positions who seek to update their skills with contemporary management practices and individuals aiming to improve their management competencies in a dynamic and digital-focused business landscape.

- Value-driven management
- Customer engagement and relationship management
- Digital literacy and agility
- Innovation and problem-solving
- Trust-based leadership and team development

# Course content
