Course content

Why Attend

Organizations that consistently perform at a high level are those that clearly define, develop, and manage the competencies required for success. Competency frameworks provide a structured approach to aligning employee capabilities with organizational goals, improving performance, and supporting talent development.

Without well-defined competencies, organizations often face challenges in recruitment, performance management, and employee development.

This programme is designed to provide practical knowledge and tools for developing, implementing, and managing competency frameworks. It focuses on translating business strategy into measurable skills, behaviors, and capabilities that drive performance and organizational effectiveness.

Course Methodology

This programme combines practical application with strategic insight:

- Real-world competency framework case studies
- Interactive workshops and group discussions
- Hands-on exercises in competency mapping and design
- Scenario-based implementation planning
- Practical tools and templates for workplace use

Course Objectives

By the end of this programme, participants will be able to:

- Understand the principles of competency-based management
- Develop competency frameworks aligned with business strategy
- Identify core, functional, and leadership competencies
- Apply competencies in recruitment, performance management, and training

Course content

Course Objectives

- Design competency-based assessment methods
- Implement and manage competency frameworks effectively
- Measure and improve competency-based performance

Target Audience

This course is suitable for:

- HR Managers and HR Business Partners
- Organizational Development Specialists
- Learning and Development Professionals
- Talent Management and Performance Specialists
- Line Managers involved in staff development
- Professionals responsible for competency frameworks

Target Competencies

Participants will develop competencies in:

- Competency framework design and development
- Competency mapping and analysis
- Talent assessment and evaluation
- Performance management using competencies
- Training and development alignment
- Strategic HR implementation
- Organizational capability development

Course content
