Course content

Why Attend

Compensation and benefits are among the most critical drivers of employee attraction, motivation, and retention. Organizations that fail to design fair, competitive, and structured reward systems often face high turnover, low engagement, and difficulty attracting top talent.

A well-designed compensation and benefits strategy ensures internal fairness, external competitiveness, and alignment with organizational goals and performance outcomes.

This programme is designed to equip HR professionals with the practical knowledge and tools required to design, implement, and manage effective compensation and benefits systems that support business strategy and workforce engagement.

Course Methodology

This programme combines analytical tools with real-world HR applications:

- Real compensation and benefits case studies
- Interactive workshops and group exercises
- Salary structure design simulations
- Job evaluation practice sessions
- Practical frameworks and templates for reward systems

Course Objectives

By the end of this programme, participants will be able to:

- Understand principles of compensation and benefits management
- Design competitive and fair salary structures
- Apply job evaluation and grading systems
- Develop benefits and reward strategies aligned with business goals
- Ensure internal equity and external competitiveness

Course content

Course Objectives

- Analyze market salary data and benchmarks
- Improve employee motivation through reward systems

Target Audience

This course is suitable for:

- HR Managers and Compensation Specialists
- Payroll and Benefits Professionals
- Reward and Total Rewards Analysts
- HR Business Partners
- Talent Management Professionals
- Finance professionals involved in payroll and compensation design

Target Competencies

Participants will develop competencies in:

- Compensation strategy design
- Job evaluation and grading systems
- Salary structure development
- Benefits planning and management
- Market benchmarking and analysis
- Reward policy development
- HR data analysis and decision-making

Course outline
