# Course content

## Why Attend

### Course Introduction

This Certified Data Privacy Solutions Professional (CDPSP) training course provides an in-depth understanding of data protection and privacy compliance, preparing participants to implement robust privacy frameworks and controls.

The course covers global data protection laws, risk management, governance, and preparation for industry-recognized certifications like CDPSE.

## Course Methodology

This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented.

This training course is interactive and challenges one to think. The tutor will guide and facilitate learning, using direct input, discussions, case studies, exercises and video presentation.

The skill sets developed will add value to employees, managers and leaders alike.

### Who should Attend?

This training course is suitable to a wide range of professionals but will greatly benefit:

- Data protection officers
- Privacy compliance professionals
- IT security managers
- Anyone preparing for data privacy certifications

## Course Objectives

By the end of this training course, participants will be able to:

- Gain a thorough understanding of data protection laws and regulations
- Learn to implement and manage effective privacy frameworks and controls

# Course content

## Course Objectives

- Develop skills to assess and mitigate data privacy risks
- Prepare for data privacy certification exams

## Course outline

### Day One: Data Protection Laws and Regulations

- Overview of major global data protection laws (GDPR, CCPA, etc.)
- Key legal requirements and obligations for organizations
- Strategies for implementing compliance programs
- Case studies of successful compliance implementations
- Interactive session: Developing a compliance strategy for your organization

### Day Two: Privacy Frameworks and Controls

- Principles of privacy by design and by default
- Developing and implementing effective privacy frameworks
- Techniques for data minimization and anonymization
- Best practices for privacy impact assessments (PIAs)
- Interactive session: Designing a privacy framework for a sample organization

### Day Three: Managing Data Privacy Risks

- Identifying and assessing privacy risks
- Developing risk mitigation strategies
- Incident response and breach management in the context of data privacy
- Case studies of data privacy risk management

# Course content

## Course outline

• Interactive session: Conducting a privacy risk assessment and developing a mitigation plan

### Day Four: Data Privacy Governance

• Establishing a data privacy governance structure

• Roles and responsibilities in data privacy management

• Continuous monitoring and improvement of privacy practices

• Reporting and communicating privacy practices to stakeholders

• Interactive session: Developing a governance structure for data privacy

### Day Five: Certification Exam Preparation

• Overview of data privacy certification exams (CDPSE, etc.)

• Detailed review of exam domains and key topics

• Study tips, resources, and practice questions

• Interactive session: Practice exams and group review

• Personalized study plans and final Q&A session
