Course content

Why Attend

Course Introduction

Welcome to the Blockchain for Supply Chain Management training course, an in-depth exploration of how blockchain technology is transforming the landscape of supply chain operations.

This Blockchain for Supply Chain Management training course is meticulously crafted to provide participants with a robust foundation and advanced insights into the strategic integration of blockchain in supply chain management.

In today's dynamic business environment, supply chain management is facing unprecedented challenges ranging from complexities in global logistics to ensuring product authenticity and combating counterfeit goods. Blockchain technology has emerged as a game-changer, offering unparalleled capabilities in enhancing transparency, traceability, and operational efficiency throughout the supply chain ecosystem.

Throughout this Blockchain for Supply Chain Management training course, participants will embark on a journey to understand the core principles and mechanisms that underpin blockchain technology.

They will explore real-world use cases and success stories where blockchain has been leveraged to streamline supply chain processes, mitigate risks, and foster trust among stakeholders.

Key topics covered in this course include:

- Understanding Blockchain Technology
- Blockchain Applications in Supply Chain Management
- Implementing Blockchain Solutions
- Future Trends and Innovations

Course Methodology

This training course will utilize a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented.

The facilitator will provide interactive presentation that incorporates slides, videos, group discussion, and practical exercises to examine all aspects of the topic.

Course content

Course Methodology

Who should Attend?

This training course is suitable to a wide range of professionals but will greatly benefit:

- Supply Chain Managers and Logistics Professionals
- Procurement and Operations Managers
- Entrepreneurs and Innovators Exploring Blockchain Solutions
- Technology Enthusiasts
- Regulators and Policymakers
- Anyone Seeking a Foundation in Blockchain for Supply Chain

Course Objectives

By the end of this training course, participants will be able to:

- Gain a fundamental understanding of blockchain technology and its relevance to supply chain management
- Identify key challenges in traditional supply chain operations
- Learn about practical blockchain applications for supply chain transparency and security
- Understand how to start planning and implementing blockchain solutions in supply chain management
- Analyze real-world use cases and best practices from different industries

Course outline

Day One: Introduction to Blockchain and Supply Chain

- Blockchain Essentials
- Overview of Supply Chain Management

Course content

Course outline

- Traditional Supply Chain Challenges
- Blockchain's Impact on Supply Chains

Day Two: Blockchain Features for Supply Chain

- Transparency and Traceability
- Data Immutability and Security
- Smart Contracts in Supply Chains
- Real-time Visibility with Blockchain

Day Three: Blockchain Applications in Inventory and Logistics

- Real-time Inventory Tracking
- IoT Integration and Smart Sensors
- Supply Chain Authentication and Verification
- Case Studies in Inventory Management

Day Four: Implementing Blockchain in Supply Chain

- Assessing Blockchain Feasibility
- Designing Blockchain Solutions
- Overcoming Implementation Challenges
- Case Studies in Successful Implementations

Day Five: Interoperability, Standards, and Future Trends

- Interoperability Challenges and Solutions
- Industry-specific Standards and Consortia
- Emerging Trends and Future Directions

Course content

Course outline

- Course Conclusion, Certificates, and Q&A

Seminar dates

Available seminar dates

Live dates and pricing for Blockchain for Supply Chain Management generated from the course details page.

Date	Location	Format	Fee
20 - 24 July 2026	Barcelona - Spain	Classroom	€3,850.-
3 - 7 August 2026	Frankfurt - Germany	Classroom	€3,250.-
7 - 11 September 2026	Rome - Italy	Classroom	€4,250.-
12 - 16 October 2026	Kuala Lumpur - Malaysia	Classroom	€2,250.-
9 - 13 November 2026	Barcelona - Spain	Classroom	€3,850.-
14 - 18 December 2026	London - U.K	Classroom	€4,200.-

Live online option

Online delivery is available at €1,850.-.
