Course content

Why Attend

Course Introduction

Supply Chain Development is presenting new challenges for fleet managers, as supply chains become increasingly vital across various sectors, including service and government organizations.

Ensuring safety remains a top priority to protect the workforce and other stakeholders. Fleet Management plays a crucial role in efficiently distributing products through extended supply chains and delivering services.

The reputation of our organization hinges on the timely and cost-effective management of these operations.

This Fleet Management Training Course will help delegates develop the Fleet Management strategy and build sustainable operations.

Course Objectives

By the end of this Training course, participants will be able to:

• Understand the Changes Which are Driving Change in Fleet Management

• Identify Safety Gaps in Performance
